Those Everyday Problems SOLVED!

IF THERE IS NO BATH IN THE HOUSE.

If there is no bathroom in the house, fix a rubber hose to the scullery tap and carry it through the windows into the room above to fill a tub.

TO GET RID OF MICE

Plaster up their holes with a mixture of soap and pepper.

WOOLWINDING TIP

Next time you want to wind wool yourself, remember this tip. Stand 2 flat irons on the table, and put the wool over the handles.

ESCAPED PARROT

Never chase a parrot. It will frighten him. Get a walking stick and hold it before his feet. He will soon hop on, then gently lift the stick to the cage door, and in Polly goes, thus saving time and labour.

BICYCLE HINT

A postage stamp will mend a puncture temporarily. A tube thus mended will keep up many miles. Do not blow up the inner tube until it is inside the outer tube.
